Start a New Job

Upload your assets to begin the transformation.

1 Uploads — 2 Settings — 3 Review

Product Image *

Required

This is the main image we will modify.

Click to upload or drag and drop

SVG, PNG, JPG or GIF (MAX. 800×400px)

Reference Image

Optional

Use this for style transfer or mood matching.

Drag & Drop reference image

Helps AI understand your desired aesthetic

Higher resolution images produce better results. We recommend at least 1024×1024px for best quality.

STEP 3 OF 3

Final Step

Refine Your Job

Apply styles and instruct our AI to get the perfect result.

Apply a Style

Use an Existing Preset

Choose from your saved library of aesthetic styles.

Neon Cyperpunk

Create a New Preset from Reference

Upload a reference image in Step 1 to enable this option.

Add AI Prompts

Describe any additional details or specific instructions for the AI, e.g., 'Make the background a lush garden with soft morning light.'

Golden Hour

Bokeh

Generate Assets

Customize Your Job

Step 2 of 3 • Configuration

Optimize for Marketplaces

Select all relevant marketplaces for asset optimization. We'll adjust dimensions and metadata accordingly.

- [x] PoshMark
- [ ] Etsy
- [x] Amazon
- [ ] Shopify
- [ ] eBay

AI Enhancements

Choose the intelligent tools to apply to your product images.

- [x] **Remove Background** — Isolates product on a transparent layer.
- [ ] **High-Res Upscale** POPULAR — Enhances details up to 4K resolution.
- [ ] **Animated Spin** — Generates a 360° video from one image.
- [ ] **Lifestyle Scene** — Places product in a realistic room.
- [ ] **Hand Model** — AI generates hands holding your product.
- [ ] **Convert to SVG** — Vectorizes logos and simple shapes.
